Campac - Transportable Building Excellence

The name Campac originally came from the words "Camp Accommodation". This is the core market Campac built its reputation on, and is still the market leader. Our specialist workforce housing team are dedicated to providing our clients with solutions that are functional yet Affordable.

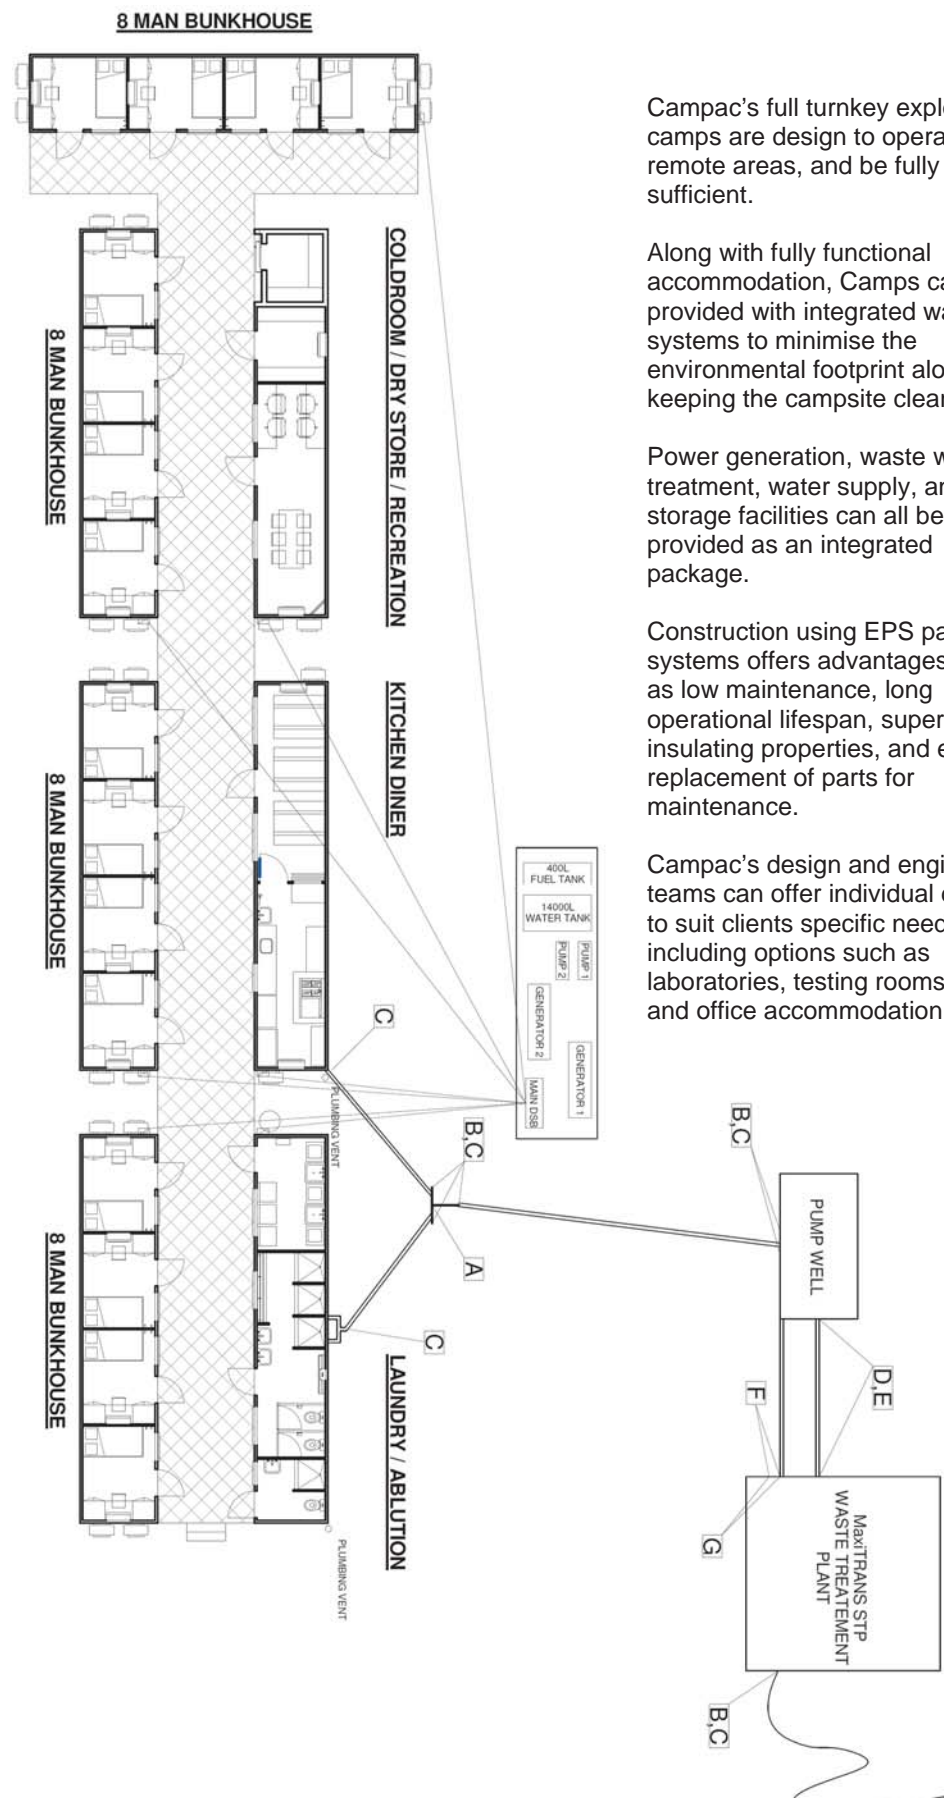

We offer a full turnkey system, being able to design and construct anything from small individual buildings, high grade movable exploration camps, through to fully established large scale worker accommodation camps housing hundreds of staff.

Mining Camps

- ◆ Bunkhouses
- ◆ Cribs Rooms
- ◆ Recreation Rooms
- ◆ Gymnasiums
- ◆ Kitchen & Dining Rooms
- ◆ Ablutions
- ◆ Full turnkey options available

30 Person Exploration camp layout

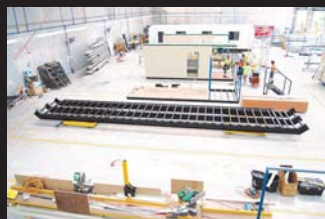

Campac's full turnkey exploration camps are design to operate in remote areas, and be fully self sufficient.

Along with fully functional accommodation, Camps can be provided with integrated walkway systems to minimise the environmental footprint along with keeping the campsite cleaner.

Power generation, waste water treatment, water supply, and storage facilities can all be provided as an integrated package.

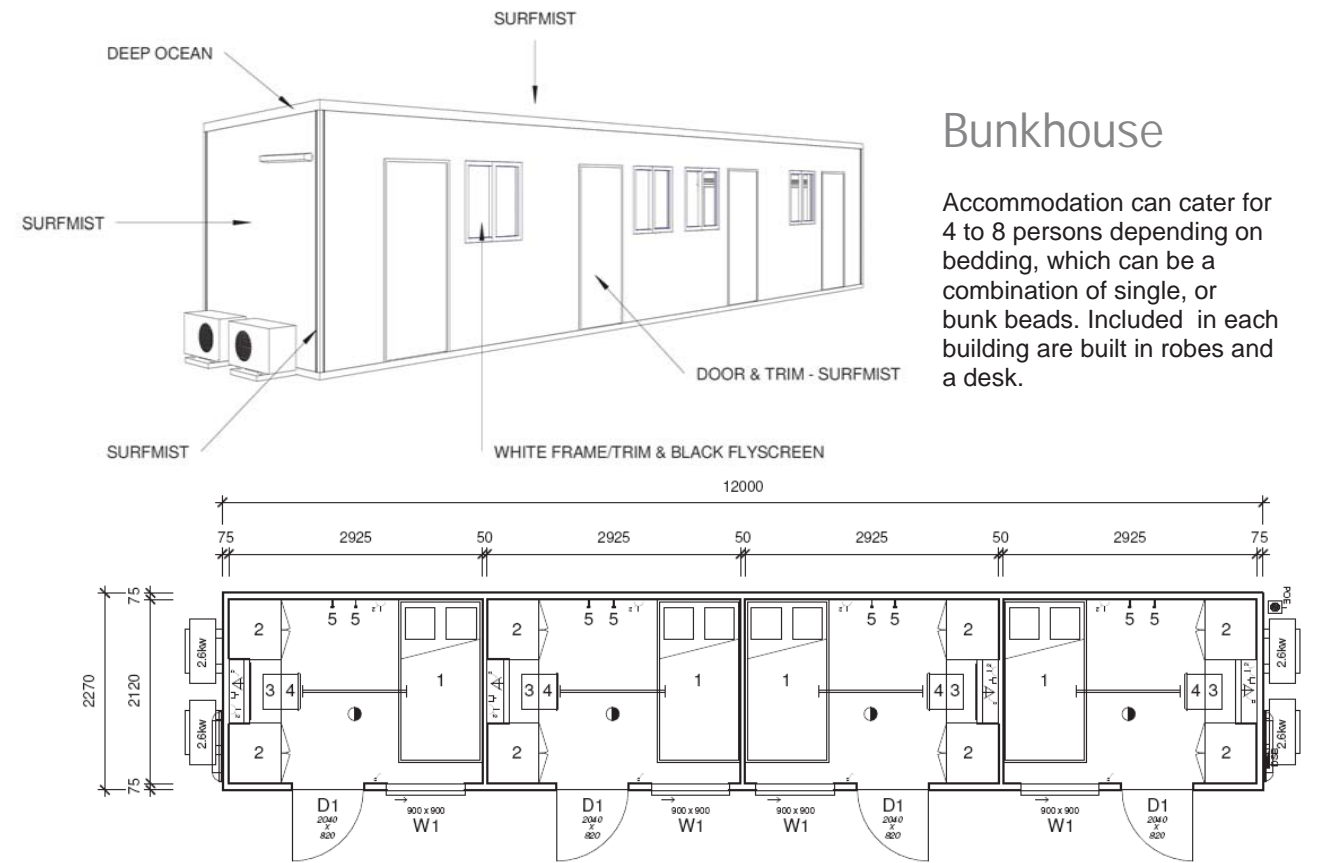

Construction using EPS panel systems offers advantages such as low maintenance, long operational lifespan, superior insulating properties, and easy replacement of parts for maintenance.

Campac's design and engineering teams can offer individual design to suit clients specific needs, including options such as laboratories, testing rooms and office accommodation.

Bunkhouse

Accommodation can cater for 4 to 8 persons depending on bedding, which can be a combination of single, or bunk beds. Included in each building are built in robes and a desk.

Kitchen/Diner

Fully operational kitchen can be fitted out to include storage, appliances, servery, and bench-top space, whilst the dining area can accommodate up to 18 people at any one time.
